Consultant shall provide biological monitoring and reporting services as required by the Florida Department of Environmental Protection (FDEP) and the U.S. Army Corps of Engineers (USACE) for the Client’s 3,000 acre Conservation Park (Park) for fiscal year 2019. The Park is the permitted receiving wetland for the Client’s reclaimed water. The intent of this scope of work is to assist the Client in meeting the conditions of FDEP and USACE permits for the receiving wetland use of the Park. This scope is intended to address specific conditions in FDEP Wetland Permit 03-231981-003-DF, FDEP Wastewater Permit FL0021512, and USACE Permit SAJ-2006-1857 (IP-CEB). The work shall cover four sampling events – Quarters 1-4 in 2019, Semi-Annual Monitoring, Annual Reporting.

Conduct 2019 Wetland Quarterly Monitoring, Sampling, and Reporting:

Task I. Conduct Quarterly USACE Monitoring and Reporting, as well as Quarterly FDEP Monitoring:

Consultant shall conduct the quarterly monitoring field activities and subsequent preparation of reports based on such field activities required by the USACE and the FDEP. This will include the belt transects for herbaceous vegetation, belt transects for woody vegetation, threatened and endangered (T&E) species transects, and fish sampling stations. The required monitoring and reporting at the fourteen Discharge Distribution Sites will also be performed by the Consultant.

Information collected and prepared by the Consultant will be provided in tabular format to the Client for the Client’s submission to the FDEP with other quarterly monitoring information prepared by others. The Consultant shall provide this information to the Client on or before the agreed upon dates identified by the Client.

Consultant shall also prepare a Draft “2019 Annual Wetlands Monitoring Summary Report” for the Client’s review that satisfies the permit conditions in the referenced permit. The Consultant will provide a Draft Report in electronic format to the Client for review and comment. Upon receiving the Client’s comments and reviewing the comments with the Client, the Consultant shall prepare the required number of copies of a Final “2019 Annual Wetlands Monitoring Summary Report” and submit on the Client’s behalf to the FDEP by the required date.

The Consultant shall process the quarterly transect monitoring data for incorporation into the USACE 2019 Annual Monitoring Report to include wetland mitigation area semi-annual monitoring data/reporting as outlined in Task II below.
The following itemized breakdown summarizes the Consultant's work for the USACE and FDEP quarterly monitoring and reporting:

A. Per conditions of FDEP Wastewater Permit (FL0021512, as revised on December 5, 2013)
   1. Monitoring of 4 previously established belt transects for herbaceous vegetation (quarterly)

   3. Monitoring of 4 1000-foot T&E transects (annually in Quarter 3)
   4. Monitoring of 4 fish sampling stations (annually in Quarter 2 or 3, depending upon conditions)

Task II. Conduct Semi-Annual Monitoring and Annual Reporting for the Wetland Mitigation Area (269 acres, four 50m transects and Walk Paths):

Consultant will perform semi-annual monitoring and annual reporting services related to the Client’s wetland mitigation area as required to satisfy the first two quarterly sampling events and to close out the monitoring of the wetland mitigation area. The wetland mitigation area includes 269 acres within the Park which the Client is required to perform mitigation services that include slash pine tree thinning and prescribed burning. There are four 50 meter long transects where specific monitoring is required on a quarterly basis and walking paths that require monitoring on an annual basis. The four 50 meter transects were previously permitted and accepted by the FDEP and USACE that the Consultant will monitor and the walking paths are constructed walking paths.

Consultant shall also prepare a Draft 2019 Annual Monitoring Report covering the conditions required by the USACE and a Draft 2019 Annual Monitoring Report covering the FDEP’s permit conditions. Both Draft 2019 Annual Monitoring Reports will be provided to the Client for review and comment prior to submitting to either regulatory agency.
