Ms. Lori Philput  
HR/Risk Management Director  
City of Panama City Beach  
17007 Panama City Beach Parkway  
Panama City Beach, Florida 32413

Dear Ms. Philput:

I have enclosed a proposal to conduct a classification and compensation study for the City of Panama City Beach. If selected, we plan to begin work on the project April 1, 2020, with a preliminary report submitted for review in June 2020 and a final report submitted on or before June 30, 2020. The enclosed proposal outlines a thorough study for the City.

I believe you will agree that confidence is built in a new classification and compensation system by involving management and employees in the process. If selected for this project, we would interview approximately 50% of the City of Panama City Beach’s 330 employees covered under this letter of agreement. We believe this high percentage of persons individually interviewed for the study will greatly increase its validity. As you will note from the enclosed proposal, in the employee interview process we utilize a variety of skilled consultants with specific subject matter knowledge of local government administration, public safety, public utilities, public finance, public works and information technology. This process leads to a valid and expertly prepared compensation plan that is accepted by the City’s employees.

Condrey and Associates has been serving clients nationwide for more than 21 years and has never been involved in any litigation. I strongly encourage you to check the references we have listed in our proposal packet. I believe you will find that we work very hard to deliver a thoroughly documented and competitive personnel system that meets the needs of management and employees alike.

This offer of services is valid until September 30, 2020. We will be happy to revise the enclosed memorandum of agreement to meet appropriate legal requirements as deemed necessary by the City of Panama City Beach or to enter into an appropriate contract initiated by the City.

We are looking forward to providing high quality human resource management consulting services to the City of Panama City Beach. I believe you will find our firm to be highly competent and responsive to the needs of your jurisdiction. Please contact me at (706) 380-7107 if I may provide further information.

Sincerely,

Steve Condrey, Ph.D., IPMA-SCP

SUMMARY OF CONSULTANT RESPONSIBILITIES AND ASSIGNMENTS

Steve Condrey will serve as project director and will coordinate all direct contacts with the client in conjunction with Jan Hansford. Jan will also coordinate the classification interview schedule, personally interview top administrative personnel, be responsible for constructing the overall classification plan, direct the salary survey, calculate project implementation costs, review the proposed classification plan with appropriate County officials, conduct employee classification appeals (if any), and be available on an as-needed basis for follow-up technical assistance and training during the first year of project implementation.

Jan Hansford and Mark Knowles will serve as assistant project directors and will assist Steve Condrey in the above outlined duties. Mark will also conduct the classification interviews in conjunction with Jan Hansford.

Dr. Greg Reece is the writer for the project. Linda Seagraves will coordinate salary data collection activities conducted by the University of Florida as part of this project and will calculate the costs of various project implementation plans.

City of Panama City Beach staff support required for the project will be minimal. We request that one person be appointed to serve as our principal contact for the purpose of communicating project plans and schedules, gathering current payroll information, and disseminating and collecting position questionnaires and draft job descriptions.
PROJECT UNDERSTANDING, PROPOSED APPROACH, AND METHODOLOGY

* For a full description of project activities please see the enclosed draft contract. Individual employees will be apprised of project activities through a series of project orientation sessions as well as personally during the time that they are interviewed for classification purposes.

* Condrey and Associates will conduct a salary survey specifically for this project. Approximately 25 organizations will be invited to participate in the survey. The salary data will be collected using a university-based online system. This system makes it easy for the target organizations to quickly and accurately input their salary and, if needed, benefit information. Each organization will be sent an email that explains the online salary system as well as access information. The team implementing the online salary survey is available to answer questions and provide support as needed. A sample of the web-based salary data collection system can be viewed at: [http://www.flsurveyresearch.org/demo/](http://www.flsurveyresearch.org/demo/) using the access code: NJFRHP

* We will provide the City of Panama City Beach with three implementation plans showing the relative impact of differing funding levels on the compensation plan. This will provide the County with a degree of flexibility in implementing the project. Back-up data will provide individual employee salary calculations for placement in the new plan. Additionally, Condrey and Associates will discern the need for and, if necessary, detail the cost of any equity adjustment to ease employee pay compression.

* Three months following project implementation, Condrey and Associates will conduct an employee appeals process. The appeals process will provide employees an opportunity to provide written justification for appealing their classification. Condrey and Associates will reply to all appeals in writing and will conduct telephone or onsite reviews to ascertain the nature of the appeals. We normally have few (if any) classification appeals.

* Condrey and Associates utilizes a modified version of the Factor Evaluation System (FES). FES is the most widely utilized point-factor evaluation system and is the basis for most all other point-factor job evaluation systems. We have utilized FES in over 500 organizations of differing functions and degrees of administrative sophistication. We find that FES, when applied skillfully and properly, produces an internally equitable classification plan that is highly acceptable to management as well as the organization’s employees. Training in FES application will be provided to the City of Panama City Beach human resources staff. Also, we provide a full year of follow-up technical assistance to include additional training to insure that the system is properly maintained. Please note that all FES data calculations are available in electronic format. Also, since FES is in the public domain, there are no copyright or royalty fees associated with its use.

* We will conduct extensive interviews or desk audits with full-time position incumbents (approximately 50% of the City of Panama City Beach’s 330 employees). This will help assure an accurate and internally equitable classification plan that is accepted by management as well as the County’s employees.
City of Panama City Beach, Florida

* Condrey and Associates utilizes a system of career ladders as an overlay to the classification system developed through our job evaluation system. These career ladders provide avenues for managerial flexibility as well as individual employee incentive and achievement. We believe this methodology is superior to traditional broad-banding and avoids that system's potential flaws, including those related to equal pay.

* Condrey and Associates is very familiar with the *Americans with Disabilities Act* (ADA). In addition to providing advice to clients in the practical application of ADA, one of the firm's principals conducted the most extensive survey to date of ADA implementation in America's cities. Approximately 300 cities responded to the survey. The results appear in the *American Review of Public Administration*.

* All written products produced for the City of Panama City Beach project will become the property of the City. This includes the job evaluation system, position questionnaires, salary survey data, and all training materials. These products will also be provided to the client in disk form. Our current software includes Word, Excel, and the Statistical Package for the Social Sciences (SPSS+). There is no additional charge for this service.
SUMMARY OF THE PROPOSED FEE STRUCTURE

Condrey and Associates will provide the services outlined in the enclosed draft contract for the fixed cost of $39,500. This fee includes one year of follow-up technical assistance at no additional charge to the jurisdiction.

Condrey and Associates' hourly rate for computing extra work not specified in the contracted scope of work is $225.00 per hour.

Please note that this proposal is made without collusion with any other person or entity submitting a proposal pursuant to this RFP.

Contract for Technical Assistance to the City of Panama City Beach: Proposal for Reviewing and Updating the City’s Compensation and Classification System

The administration of the City of Panama City Beach has determined the need for a review and updating of the job classification system and pay plan for selected jobs covered under its personnel system.

Condrey and Associates proposes the following schedule of activities to accomplish four objectives:

1. Review and revise the current personnel classification system and pay plan for all employees covered under this agreement;
2. Produce an updated description of each job and produce a classification system based on job content analysis;
3. Collect salary data and produce a recommended pay plan based on job analysis, job evaluation, and survey data; and
4. Train designated personnel in each step of classification and pay plan development to help insure the implementation and maintenance of the system.

Phase I – Developing a Work Plan and Schedule of Activities

1.1 Condrey and Associates, in cooperation with appropriate officials, will generate a work plan of activities and target dates for completion.

1.2 During this phase all the documents detailing the current personnel policies and procedures, job classification system and pay plan will be made available to Condrey and Associates for review and analysis.

Phase II – Job Analysis Survey

2.1 Condrey and Associates will develop a detailed job survey form to be completed by position incumbents. This data will serve as the basis for generating updated job descriptions, job classifications, and job evaluations (ranking of jobs).

2.2 Condrey and Associates will determine the number of interviews and/or job audits that will need to be conducted to insure adequate data for generating a complete and valid description of each job and job classification. It is anticipated that approximately 50% of
the City of Panama City Beach's 330 employees will be interviewed concerning their job duties and responsibilities.

2.3 After the job survey, job audits and interview data are analyzed, a properly formatted job description will be completed for each job. The written job description will draw on four sources of information: (1) current job descriptions, (2) information from the job survey, (3) supervisors' review and critique, and (4) interviews and job audits.

Phase III – Job Evaluation

3.1 Condrey and Associates will furnish a job evaluation format of established procedures for ranking jobs and measuring differences in job content.

3.2 Condrey and Associates and appropriate officials will select a format best suited for measuring different levels of knowledge, skills, and abilities required to perform the jobs to be evaluated.

Phase IV – Developing a Compensation Structure

Condrey and Associates will:

4.1 Condrey and Associates will conduct a salary survey of organizations specifically for this project. The survey will include up to 25 organizations and 40 benchmark positions.

4.2 Condrey and Associates will collect, review, and format published salary data covering relevant public and private organizations.

4.3 Condrey and Associates will analyze and format the survey data for use in establishing competitive pay levels.

4.4 After the survey data is compiled, Condrey and Associates will review all data generated to this point with appropriate officials to determine what additional information needs to be considered before moving to the next phase.

Phase V – Developing a Pay Plan

Condrey and Associates will:

5.1 Establish recommended pay grades based on the job evaluation results (Phase III) and the wage survey (Phase IV).
5.2 Establish pay steps or ranges in each grade and present the complete recommended pay plan to appropriate officials for review. At this point the plan will reflect the data from Phases III and IV as well as cost-of-living data and the jurisdiction’s financial condition and compensation policy.

Phase VI — Implementing and Administering the Program

Condrey and Associates will:

6.1 Recommend a series of career ladders and lattices as appropriate.

6.2 Determine the proper FLSA designation of each position.

6.3 Present alternative plans to ameliorate salary compression.

6.4 Be available to provide a reasonable level of ongoing technical assistance necessary to maintain the program.

Cost and Duration

The cost to Condrey and Associates to provide the services specified in this proposal will be a fixed fee of $39,500. Considering the scope of the project, we anticipate a three (3) month work plan beginning April 1, 2020, with final reports submitted on or before June 30, 2020. Follow-up technical assistance will be provided through June 30, 2021 at no additional cost to the City (with the exception of travel-related costs). Formal involvement would terminate June 30, 2020.
