   - Regular

5. **Is This Item Budgeted (If Applicable)?**
   - Yes ✔
   - No ☐
   - N/A ☐

   **Budget Amendment or N/A**

6. **Background: (Why is the Action Necessary, What Goal Will be Achieved)**
   - The City Council initiated acquisition of the Bayside Utilities service area and system assets via Resolutions 2011-29.1 and 29.2, and ultimately closed on the acquisition in May 2012. Bayside water and sewer system serves approximately 295 residential units and is located on Wildwood Road at the northeast end of our franchise area. The water and sewer system needs to be replaced to in order for the City to provide more reliable and efficient service, with lowered maintenance costs. This replacement need was anticipated during the acquisition negotiations, and Bay County has agreed to contribute $500,000 toward construction costs for help in restoration of the County maintained roads that will be impacted during the utility work.

   All design work and permitting is complete, a solicitation for construction bids was publicly advertised and four bidders responded. The engineering consultant has reviewed the bids, and recommends awarding the work to the low bidder, L&R Contracting, LLC in the basic amount of $3,483,407. Staff concurs and further recommends the City Council authorize an additional not-to-exceed $100,000 (approx. 3% of bid) for the resolution of potential change orders resulting from unforeseen below ground conditions. Staff has very little information on locations of existing sewer connections to individual units. The current system meanders through private yards, and the new system will be installed in public rights of way.

   This project is currently budgeted and the proposed expenditure is within budget. Attached is a copy of the bid tabulation, consultant recommendation and draft agreement with L&R.

   **Why** - To allow the City Manager to enter into a construction contract with L&R Contracting, LLC

   **What** - Facilitate the planned reconstruction of the Bayside water and sewer utility system to improve service in that area and reduce maintenance costs.

This section shall expressly apply to claims for early completion, as well as to claims based on late completion. Notwithstanding the foregoing, if the Work is delayed due to the fault or neglect of OWNER or anyone for whom OWNER is liable, and such delays have a cumulative total of more than 90 calendar days, CONTRACTOR may make a claim for its actual and direct delay damages accruing after said 90 calendar days as provided in Section 00805 Supplemental Conditions, Contract Claims and Changes.
