I hereby certify that the permanent erosion control measures on the project site have been built in accordance with the certified design plans, and that any substantial deviations (noted below) will not prevent the facility from functioning in compliance with the requirements of Chapter 3.05.00 of the City of Panama City Beach's Land Development Code, when properly maintained and operated. Chapter 3.05.00 references the provisions of the National Pollutant Discharge Elimination Systems from the Environmental Protection Agency as found in 40 CFR parts 122 & 123. I understand that substantial deviations may result in the City requiring revised Best Management Practices prior to acceptance or issuance of a Certificate of Occupancy.
